a quilt, a letter, a migrant story

25. – 27. march 2022

**what**

We will get together to weave a collective quilt-letter. You don't need to know how to sew-embroider-weave: we will collaboratively tell stories. With threads and needles, and also with sounds, we will narrate some personal and collective things about resistances and struggles related to extractivism, defense of life and our rights in times of migration / exile / refuge / voluntary displacement... or not.

**who**

This space invites people of all backgrounds and identities who have some familiarity with communication in Spanish and the desire to collectively weave a quilt on migration, rejection of hostile forms of extractivism and defense of life.

**when**

Friday 25. march 6 pm  
Conversation + collective weaving

Saturday 26. march 10.30 am  
Walk along the banks of the Limago river + sound recordings

Sunday 27. march 10.30 am  
Completion of the migrant letter-collage

We don't know how it will turn out: let's experiment!  
Through traditional weaving our voices can be raised and amplified.
